REFERENCE: DOCKET 99P 0033/CP 1

Dear Commissioner Henney:

It is unconscionable that in our society, that abuses continue against living creatures in our keeping. An end must swiftly be put to the unacceptable practices now carried on in the preparation of animal feed.

A ban must be placed on the feeding of dead, possibly diseased animals to other farm animals. It is an abuse to the animals that are forced to consume this refuse, and a potential disaster for the human beings who will later consume those farm animals.

Please... .. let's give a damn as the new century approaches.

Most sincerely,

Eleanor Lipschütz
